

# CBIZ KA Consulting Services

Established in 1978, CBIZ KA Consulting Services, LLC (CBIZ) specializes in data-driven solutions that lead to a healthier revenue cycle and more compliant operations. Employing a cross-section of health-care professionals, we ensure that operations critical to revenue, compliance and clinical outcomes are enhanced.

## Areas Of Expertise

### Revenue Assurance

We have a variety of services to ensure that your facility realizes its entitled revenue. Through our proprietary data analytics and decades of financial reimbursement experience, we help you identify and resolve key revenue cycle issues. We develop corrective action plans and create monitoring programs so that fixes remain fixed.

- **Revenue Defender** - A comprehensive revenue assurance reporting package.
- **S2O Monitor** - Performance monitoring for short stay inpatient and observation services.
- **Medicare Quality Programs Assessment** - A review of key quality measures that can significantly affect your facility's revenue.

### Medicaid Eligibility Services

CBIZ's Eligibility Services assists hospitals in identifying and qualifying patients who should be enrolled in a state or federal Medicaid program. Our approach increases hospital revenue while reducing write-offs and collection activity. CBIZ's patient advocacy focus and our community-specific multilingual staff increases enrollment and streamlines processes. Our data expertise and willingness to do the hard work results in optimized eligibility revenue.

- **DAY-1 Medicaid** - Outsourced Medicaid Eligibility Services
- **Medicaid Recoupment Analysis** - Missed Revenue Recovery Services

### Compliance and Coding Services

Our team of financial healthcare professionals, nurses, case managers, certified coders and data analysts are here to ensure that your facility's coding and documentation are compliant. Our compliance services result in improved billing accuracy and clinical documentation while decreasing denials and recoupments.

- **E&M Audits** - Evaluates the code level selected and quality of supporting documentation.
- **Chart-to-Bill Audits** - Reviews to verify that all services rendered are captured, coded and billed appropriately.
- **I-10 Check** - A data-driven solution that confirms coding accuracy and identifies potential revenue opportunities.
- **Medical Necessity and Case Management Reviews** - A clinical review to determine if the documentation supports the level of service provided.
