2021 E/M Changes: Understanding the Impact to Coding, Reimbursement, and Operations

The new E/M changes for the 2021 Medicare Physician Fee Schedule will have significant impacts on coding and reimbursement. This webinar will address the new Rule, with emphasis on how Medical Decision Making (MDM) will be calculated and the creation of new coding and billing criteria for time spent with patients.

The webinar will be given in conjunction with New Jersey Healthcare Financial Management Association and CPE's will be available for attendees.

Learning objectives for this webinar are:

- Understanding the 2021 changes to E/M coding, specifically new methodologies to describe Medical Decision Making (MDM)
- Examples that demonstrate how E/M levels will be coded differently in 2021
- New work Relative Value Units (RVUs) for E/M visits that increase RVUs 28% to 45% for established patients
- Reimbursement implications of the revised Conversion Factor
- Impacts to productivity measures and physician compensation

Attendees will receive CPE credit
